Course and Subject Matter (Lecture)

What was the overall quality of this course? Exceptional

How confident are you in the instructor's knowledge of the subject matter of this course? Exceptional

Application of Evaluation Standards (Lecture)

How fair was the application of evaluation standards? Very fair

Guidelines for Evaluating Student Work (Lecture)

How clear were the instructor's expectations and guidelines for evaluating student work? Very clear (4)

Teaching (Lecture)

What was the overall quality of the instructor's teaching? Exceptional (4)

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement.

Professor Mariscal is an absolute treasure. He's very knowledgeable and an amazing professor. He loves to teach and loves the subject in which he teaches. He is a new professor, so of course he is getting used to the UNR system, there is no fault there. He engages with the entire class and allows for everyone to speak and give opinions. He makes for an awesome environment and one that I love to go to. Of all my classes this semester, his is my favorite.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement.

The course itself is a good one for all STEM majors. It lets us get into topics that we otherwise wouldn't see. For example, I'm a Geosciences major and therefore mostly learn those topics. This class' topics range from biology to astronomy and everything in between. Again, the reason why the class is so great though is because of the professor teaching it. He engages us in topics that allow for heavy thinking and critical responses.

Learning Outcomes (Lecture)

How well did the syllabus and the instructor convey course expectations and learning outcomes? Exceptional

How well did the course help you achieve these learning outcomes? Exceptional

How many hours per week did you work on this course, other than time in class? 4 to 6 hours

What grade do you expect to receive for this course? Select N/A if the course is not graded. A or A-

Core Objective 13

This Capstone course satisfies Core Objective 13 (Integration & Synthesis). Exceptional

How well did the syllabus and the instructor convey this objective: Students will be able to integrate and synthesize Core Curriculum knowledge, enabling them to analyze open-ended problems or complex issues?

How well did the course help you achieve this specific Core Objective?

Exceptional

Core Objective 9

This course satisfies Core Objective 9 (Science, Technology, & Society). How well did the syllabus and the instructor convey this objective: Students will be able to connect science and technology to real-world problems; distinguish between sound and unsound interpretations of scientific information; employ cogent reasoning methods in examinations of problems and issues; and understand the applications of science and technology in societal context?

How well did the course help you achieve this specific Core Objective?

How confident are you in the instructor's knowledge of the subject matter of this course? Good

Application of Evaluation Standards (Lecture)

How fair was the application of evaluation standards? Very fair

Guidelines for Evaluating Student Work (Lecture)

How clear were the instructor's expectations and guidelines for evaluating student work? Mostly clear (3)

Teaching (Lecture)

What was the overall quality of the instructor's teaching? Good (3)

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement.

The instructor showed knowledge of the subject matter through the lectures and taught the class how to make connections between complex global issues. The readings had good content we could refer to as well. I think though, the power points could be more clear. While the slides provided good content, some just showed images and sometimes it was hard to get a precise grasp of content.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement.

The course as a whole provided excellent skills in interpretation and how the subjects of philosophy, technology, and science relate to each other and global issues. I think though that there was a lot of content from the readings to cover a 250 word response for every other day. Maybe have a weekly paper of 1 to 2 pages to there's more to write about.

How confident are you in the instructor's knowledge of the subject matter of this course? Good

Application of Evaluation Standards (Lecture)

How fair was the application of evaluation standards? Very fair

Guidelines for Evaluating Student Work (Lecture)

How clear were the instructor's expectations and guidelines for evaluating student work? Somewhat clear (2)

Teaching (Lecture)

What was the overall quality of the instructor's teaching? Adequate (2)

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement. The instructor seemed to know a lot of material, but didn't put any structure to the class.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement. I am very disappointed in the course. There was no structure. Half of the readings that were assigned were not discussed in the class. Class discussion took over half the class time. Subjects brought up in class discussions were mainly irrelevant. If I knew how this class was, I honestly would have taken a different class.

Learning Outcomes (Lecture)

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement.

I thought that Carlos was very helpful in many ways and knowledgeable about the subject. He was always willing to allow the students to ask questions or share their opinions. He always seemed to value the opinions of the students and would affirm various concerns that students had. Overall, he has been one of the most sympathetic professors that I have had and also seemed to not have a sense of superiority over his students even though he has had much more experience with the subjects that were discussed in class. Carlos was very relatable and conveyed a sense of lightheartedness even in the midst of sad or controversial topics. I learned a lot from him and I very much appreciate his enthusiasm for his field of study as well as for the well being of his students. To be quite honest I was very apprehensive about taking a philosophy class since I had not taken one before but his style of teaching allowed it so that nearly every student had the ability to share something even without prior knowledge of philosophical arguments or conversations.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement.

The structure of the class was very different from all the other courses that I have previously taken but I say this in the best way possible since it was a refreshing take. Many of the subjects that were discussed in class I had rarely been exposed to or thought about and it actually made me very excited to learn more about the topics. I enjoyed how Carlos gave us the ability to explore various topics and listen to a variety of opinions. After several particularly interesting classes I found myself thinking about the topics discussed in that class for hours and sharing my intrigue with others around me. For this reason, it was always quite easy to go to class and it did not feel like an obligation because I was certain to learn something new and interesting about the evolving world around me.

The class is composed of lots information, names, dates, and technology, the teacher has a very strong level of content knowledge on what he teaches but sometimes it is hard to keep up without a slideshow. The teacher kept the class interesting and relevant.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement.

A lot of the class was spent on students rambling about their opinions on certain topics and students talking over students. This made it hard to focus on what was important and also talk in class because there would always be someone talking over you.

Course and Subject Matter (Lecture)

What was the overall quality of this course? Exceptional

How confident are you in the instructor's knowledge of the subject matter of this course? Exceptional

Application of Evaluation Standards (Lecture)

How fair was the application of evaluation standards? Very fair

Guidelines for Evaluating Student Work (Lecture)

How clear were the instructor's expectations and guidelines for evaluating student work? Very clear (4)

Teaching (Lecture)

What was the overall quality of the instructor's teaching? Exceptional (4)

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement. Learned a bunch, opened my eyes to different interests

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement.

Learning Outcomes (Lecture)

How well did the syllabus and the instructor convey course expectations and learning outcomes? Exceptional

How well did the course help you achieve these learning outcomes? Exceptional

How many hours per week did you work on this course, other than time in class? 4 to 6 hours

What grade do you expect to receive for this course? Select N/A if the course is not graded. B+, B, or B-

Core Objective 13

This Capstone course satisfies Core Objective 13 (Integration & Synthesis). How well did the syllabus and the instructor convey this objective: Exceptional

Students will be able to integrate and synthesize Core Curriculum knowledge, enabling them to analyze open-ended problems or complex issues?

How well did the course help you achieve this specific Core Objective?

Exceptional

Core Objective 9

This course satisfies Core Objective 9 (Science, Technology, & Society). How well did the syllabus and the instructor convey this objective: Students will be able to connect science and technology to real-world problems; distinguish between sound and unsound interpretations of scientific information; employ cogent reasoning methods in examinations of problems and issues; and understand the applications of science and technology in societal context?

How well did the course help you achieve this specific Core Objective?

Sci Tech & Society (Fall 2016)

Instructor: **Mariscal, Carlos**
Subject: **PHIL**
Catalog & Section: **480 1001**

Enrolled: **43**
Responses Incl Declines: **17**
Declined: **0**

Response **15** of **17**

Course and Subject Matter (Lecture)

What was the overall quality of this course? Good

How confident are you in the instructor's knowledge of the subject matter of this course? Exceptional

Application of Evaluation Standards (Lecture)

How fair was the application of evaluation standards? Very fair

Guidelines for Evaluating Student Work (Lecture)

How clear were the instructor's expectations and guidelines for evaluating student work? Very clear (4)

Teaching (Lecture)

What was the overall quality of the instructor's teaching? Good (3)

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement. Powerpoints are helpful for students to understand time lines, people, and technology advances. I enjoyed days were students were able to share their thoughts to the class, however some days were dragged on and any ones opinion could be correct thus, we could have moved on. I think giving time to discuss is great, just limit the time.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement. I always like the option to respond to writings of my choice. Often times a student can't read every piece of text throughout the entire semester. With your method, 10 was required, I almost felt that it should be 15. 10 allowed too many people to assume they had time to do them later, yet turns out they had procrastinated too long and had less than 10 at the end (also their own time management problem).

Learning Outcomes (Lecture)

How well did the syllabus and the instructor convey course expectations and learning outcomes? Good

How well did the course help you achieve these learning outcomes? Good

How many hours per week did you work on this course, other than time in class? 4 to 6 hours

What grade do you expect to receive for this course? Select N/A if the course is not graded. B+, B, or B-

Application of Evaluation Standards (Lecture)

How fair was the application of evaluation standards? Very fair

Guidelines for Evaluating Student Work (Lecture)

How clear were the instructor's expectations and guidelines for evaluating student work? Somewhat clear (2)

Teaching (Lecture)

What was the overall quality of the instructor's teaching?

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement.

I found that the attitude of the instructor put me off the course. Though throughout the course I grew to enjoy the course, which helped me to engage in the material.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement.

Please try to grade in a bit more time. It was difficult, to know what to improve on in my writing.

Learning Outcomes (Lecture)

How well did the syllabus and the instructor convey course expectations and learning outcomes? Exceptional

How well did the course help you achieve these learning outcomes? Good

How many hours per week did you work on this course, other than time in class? 1 to 3 hours

What grade do you expect to receive for this course? Select N/A if the course is not graded. B+, B, or B-

Core Objective 13

This Capstone course satisfies Core Objective 13 (Integration & Synthesis). How well did the syllabus and the instructor convey this objective? Good

Students will be able to integrate and synthesize Core Curriculum knowledge, enabling them to analyze open-ended problems or complex issues?

How well did the course help you achieve this specific Core Objective?

Adequate

Core Objective 9

This course satisfies Core Objective 9 (Science, Technology, & Society). How well did the syllabus and the instructor convey this objective: Students will be able to connect science and technology to real-world problems; distinguish between sound and unsound interpretations of scientific information; employ cogent reasoning methods in examinations of problems and issues; and understand the applications of science and technology in societal context?

Course and Subject Matter (Lecture)

What was the overall quality of this course? Adequate

How confident are you in the instructor's knowledge of the subject matter of this course? Good

Application of Evaluation Standards (Lecture)

How fair was the application of evaluation standards? Mostly fair

Guidelines for Evaluating Student Work (Lecture)

How clear were the instructor's expectations and guidelines for evaluating student work? Somewhat clear (2)

Teaching (Lecture)

What was the overall quality of the instructor's teaching? Good (3)

Please provide your thoughts on the instructor's teaching, including strengths and areas for possible improvement.

I loved the class, the discussions were often very interesting. However, I had an issue with the clarity of the instructions for assignments and still am not sure how much I learned about science and technology in society.

Please provide your thoughts on the course as a whole, including strengths and areas for possible improvement.
